

FOR IMMEDIATE RELEASE

**TRISOTECH RANKS AS ONE OF THE 100 FASTEST
GROWING COMPANY'S IN CANADA**

Growth Rate of 782% Over Five Years

Montreal, Québec - May 23, 2002 – Trisotech announced today that it has been ranked the 87th-fastest-growing company in Canada in *Profit Magazine's* annual "Profit 100". Complete details can be found on *Profit Magazine's* website (www.profitmag.ca/profit100).

Trisotech also ranks in the top 20 of Québec's fastest-growing companies.

With a dramatic five-year growth rate of 782 percent, Trisotech has clearly become a powerful force within the expanding IT Human Capital industry, first as a consulting firm and now also meeting a growing demand for Human Capital Procurement software solutions.

Trisotech's success results from the company's strategy of providing Human Capital Management tools to make sourcing, tracking, and hiring IT staff easier, faster, and more cost-effective. Currently servicing Québec's Fortune 100, Trisotech is rapidly moving to commercialize software it developed to manage its own human capital.

Trisotech has continued to build momentum in the first half of fiscal 2003. Preparing for an upcoming release of their software, Trisotech will be beginning transition of their traditional IT consultancy clients into an installed user base of their revolutionary new Human Capital Procurement software solution.

"We are very pleased to be ranked in the "Profit 100", and thank everyone - employees, customers, and shareholders - for their contributions to our growth," said Denis Gagné, CEO of Trisotech. "We intend that Trisotech will maintain its aggressive pace, and we are looking forward to making the transition from an IT consultancy to a software company."

About Trisotech

Founded in 1996 and Headquartered in Montreal, Trisotech is an independently owned software company that provides Human Capital Procurement solutions for IT staffing and services. Trisotech's Human Capital Procurement portfolio of solutions enables clients to strategically manage staffing initiatives, to gain process control, to optimize cost, quality and efficiency. Anchored on Artificial Intelligence innovation, its enterprise strength web centric suite automates and manages the innate complexities of procuring (sourcing, tracking and acquiring) IT professionals and services. Trisotech's software solution has evolved from client experience, such as Fédération des Caisses Desjardins du Québec, Banque Laurentienne, GE Canada, Bombardier Transport, Gaz Métropolitain, Meloche Monnex, and Hoffman LaRoche.
