
Business Process Modeling and Automation (BPM) Seminars for the Insurance and finance Industry

During 2005, Trisotech, in collaboration with NewLink Group and Flying Formation delivered a series a seminars on the Modeling and the Automation of Business Processes (BPM) for the Finance and Insurance (F&I) sector.

More than 50 participants from 16 different F&I enterprise attended these seminars.

The objective of this initiative had to fold:

- Update F&I personnel on BPM state and evolution;
- Present a BPM solution directly aligned to the F&I companies requirements and characteristics.

The solution presented, called iBPM, integrates the F&I business knowledge (expertise and business models) to the business transformation capabilities (expertise and methodology), and the Trisotech innovative BPM suite.
