
TRISOTECH LAUNCHES KNOWLEDGE CENTER

MONTREAL, May 31, 2007 – Trisotech launches its **Knowledge Center** to promote a deeper understanding of the business process management domain and the enabling technology behind Trisotech solutions.

Sponsored by Trisotech, the **Knowledge Center** regroups material representing many points of view from a wide range of sources.

The **Knowledge Center** is a growing body of knowledge -- a place to share and access our internal, collective understanding. We hope that visitors will find this evolving collection of links, books, information sources and documents useful.

The **Knowledge Center** can be access directly at knowledgecenter.trisotech.com or via Trisotech Web site at www.trisotech.com.
