## **TRISOTECH'S BPMN COURSES AND BPM SOLUTIONS SUPPORT THE LATEST VERSION OF THE BPMN STANDARD**

**MONTREAL, October 24, 2007** – Trisotech's BPMN courses and BPM solutions now support the latest version of the Business Process Modeling Notation (BPMN), version 1.1.

This new version clarifies and improves this important standard from the Object Management Group (OMG).

The primary goal of BPMN is to provide a notation that is readily understandable by all business users, from the business analysts that create the initial drafts of the processes, to the technical developers responsible for implementing the technology that will perform those processes, and finally, to the business people who will manage and monitor those processes. Thus, BPMN creates a standardized bridge for the gap between the business process design and process implementation.
