
TRISOTECH'S TECHNICAL PERSONNEL AT ECLIPSEWORLD™

MONTREAL, November 16, 2007 – Trisotech's technical personnel attended the EclipseWorld™ conference in Washington DC (November 6-8).

EclipseWorld™ is the industry's first independent conference for enterprise software developers, architects and development managers using Eclipse tools and technologies. It allows attendees to go beyond the IDE to understand the wide range of Eclipse technologies.

A faculty of experts, including many contributors to Eclipse's core technologies as well as the newest Eclipse projects, are there to pass their knowledge.

Trisotech's personnel can obtain first hand information on a wide range of Eclipse projects, such as the Business Process Management (BPM), Business Intelligence (BI) and Reporting Tools, Aspect Oriented Programming, the Rich Client Platform, and much more. Software modeling, collaboration, testing/quality assurance, Web development, build manager, software deployment and other essential topics are also discussed.

For more information, please contact André Sirois at 514-990-6639, ext. 777 or at asirois@trisotech.com.
